

Nitin Borale

B.Tech Computer Science & Engineering Student | REVA University, Bengaluru

PROFILE

Second-year Computer Science Engineering student interested in software development, data analysis, artificial intelligence, and machine learning. Building strong programming and problem-solving fundamentals through coursework and practical academic projects.

EDUCATION

B.Tech — Computer Science Engineering
REVA University, Bengaluru, India

2025 – Present
Currently 2nd Year

TECHNICAL SKILLS

- **Programming:** C, Python, Java
- **Web:** HTML, CSS, JavaScript, React
- **Data & AI:** NumPy, Pandas, Matplotlib, Data Analysis, Machine Learning fundamentals
- **Databases:** SQL, MySQL
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

Water Quality Detector

Arduino UNO based water-quality monitoring project using a turbidity sensor and 16x2 I2C LCD to read sensor values and display water-quality status.

Arduino UNO • Turbidity Sensor • 16x2 I2C LCD

C Programming Projects

Academic C programming work covering arrays, pointers, structures, functions, dynamic memory allocation, and file handling.

C • Pointers • Arrays • File Handling

College Admission Management System

UML-based academic system covering application processing, student registration, document verification, fee payment, merit list generation, and notifications.

UML • System Design • Software Engineering

ATM Management System

Python-based academic project demonstrating basic ATM operations using functions, conditions, loops, and user interaction.

Python • Functions • Control Flow

RELEVANT LEARNING

- C Programming and problem solving
- Data Structures & Algorithms
- Python and data analysis
- Database Management Systems
- Git & GitHub
- AI / ML fundamentals
